

# WHAT'S NEW

## MAGNUS VARIABLE SPEED PUMP

Introducing the new MAGNUS Variable Speed DC Pump 4000 LPH model. The series has 4 models from 4000 lph, 6000 lph, 9000 lph to 12000 lph with the 4000LPH model being the latest addition. The smart controller adopts FOC sine wave which provides stable torque output, that makes the pump low in noise and vibration. It has a "Memory Function" and "Overload Protection Function" that help to prevent overflow and the pump getting jammed. With the slim controller you can also easily adjust the flow and pause the pump into "Feed Mode". MAGNUS is a reliable, high pressure head and energy-efficient DC pump for your tank. It comes with a 2 year warranty and is available through the Australian distributor Beyond The Sea Reef Supplies.
